

REJUVENATE™ PLUNGES

DESIGNED TO FIT INTO EXISTING FACILITIES AND ACCOMMODATE ADDITIONAL CONFIGURATIONS

- High-grade panels fit through standard doorways
- Configurable options for stairs and benches
- Includes bottom drain capability
- Available in hot, cold and combination models

Rehab Plunges Designed For Flexibility:

- Choose from seven size configurations
- Place the hot and cold plunges together to promote rapid muscle recovery and maximum convenience

Stairs / Benches:

- Many options for stairs and benches
- Optional ladder with no stairs

Resistance Therapy Jet With Massage Hose (Optional Upgrade):

- A resistance jet is essential for cold pool therapy, rehabilitation, sports performance training, swimming or deep tissue massage
- The jet has a wide range of water speeds and directional configurations

Chiller System:

- The chiller system in our cold plunge consistently keeps water temperatures at a therapeutic 50° to help control joint inflammation and enhance muscle recovery
- The chiller unit size is determined by the plunge model selected
- HydroWorx cold plunge models utilize water-cooled chiller systems

Spa Jets:

- Strategically designed resistance jets are positioned to hit trigger point patterns for a soothing massage
- Spa jets come in packages of six, eight, and twelve

Water Quality System:

- Each hot or cold plunge therapy system comes with an equipment pack that filters, sanitizes and circulates the water

Warranty:

- HydroWorx products are made with superior strength and durability
- First-year parts and labor warranty
- Five-year structural warranty
- Extended warranty and service plans are available

Technology Upgrades Available:

- HWX100 Pool Water Solution
- HydroWorx Customer Training Program
